
Web Project Proposal

Being a member of ICC this website is designed to provide all the information related to cricket.

Goals

1. Increase the number of viewers towards cricket via the website.
2. want to make this website one of the trending website
- 3.** satisfy the viewers by providing exact information

This website showcases entertaining information for visitors. The main purpose of creating a cricket website is to provide knowledge about this sport to the viewers.

REASON.

To provide viewers 1. History of the game

2. latest news

3. rules and regulations

4. Equipment used

5. Types of tournament

- From this website, I want to promote cricket to different level and provide this sport a different recognition in world. And also I want people to enjoy my site.
- My target audience will be sports lovers. Per surveys adults has more craze in sports than the others. so it will be more easy to attract this type of audience. so firstly, I will target adults probably the males. And then then others who want to learn something about cricket.

- My website is going to contain everything about cricket. Starting from history to latest news, stats, live scores, schedule and fixture of every team, ranking of teams and so on.

My website will make use of hypertext and Hypertext Markup Language (HTML) with hyperlinks so that the user can navigate through our site by a mouse click or key sequences using the keyboard.

I also use JPEG and GIF format to give unique display to my website.

THESE are the URLs similar to my websites found on the Web.

1. Cricinfo
2. cricbuzz

HISTORY

The sport of [cricket](#) has a *known* history beginning in the late 16th century. Having originated in south-east England, it became the country's national sport in the 18th century and has developed globally in the 19th and 20th centuries. International matches have been played since 1844 and [Test cricket](#) began, retrospectively recognised, in 1877.

Home>rules and regulation

Rules and gameplay

A cricket match is divided into periods called *innings* (which ends with "s" in both singular and plural form). It is decided before the match whether the teams will have one innings

the other *bats*.

The two teams switch between fielding and batting after each innings. All eleven members of the fielding team take the field, but only two members of the batting team (two [batsmen](#)) are on the field at any given time. The order of

batsmen is usually announced just before the match, but it can be varied.

Playing surface

Cricket is played on a [grassy field](#).^[17] The *Laws of Cricket* do not specify the size or shape of the field,^[18] but it is often oval. In the centre of the field is a rectangular strip, known as the [pitch](#).^[17]

The pitch is a flat surface 10 feet (3.0 m) wide, with very short grass that tends to be worn away as the game progresses.^[19] At either end of the pitch, 22 yards (20 m) apart, are placed wooden targets, known as the [wickets](#). These serve as a target for the [bowling](#) (also known as the [fielding](#)) side and are defended by the [batting](#) side, which seeks to accumulate runs.
